

UVEE™ Strip Light™ Intelligent Lamp

Thank you for choosing the UVEE™ Strip Light™
The revolutionary, lightweight, large coverage, low form factor, stationary overhead wash UV Lamp.

Your Unit Contains:-

- (1) Overhead LED array
- (2) Control Box
- (3) Power Supply.
- (4) Euro Mains Plug

Please note that: -

The overhead Strip Light™ and the Control Box leave our production facility assembled as a complete unit and should ideally not be separated.

Each Control Box bears the Eye Safety label, CE marking and its own unique serial number.

Once The Unit is Suspended: -

The power supply (3) is then connected to the input of the Control Box (2) .

OPERATING INSTRUCTIONS

Action	Effect
(1) Mains supply connected.	White indicator LED flashes to signify "ON".
(2) Press Control Box button once briefly	UV illumination
(3) Briefly press Control Box button for 2 nd time	White Light illumination
(4) Briefly press Control Box button again	Toggles back to UV illumination
(5) Press button at any time >2 seconds	Strip Light™ turns completely "OFF"

EU Service and Maintenance Centre

We have a Service Centre in Poland, which can provide a next-day response to all EU countries.

Apart from routine maintenance and servicing, we can also provide next day response across the whole EU to supply immediate replacement units to minimise clients' down-time.
